of the European Union

Engage with North  
American end users  
interested in your  
cleantech solutions

# What is EU Techbridge?

The EU Techbridge project – co-funded by the COSME program of the European Union – matches innovative European Small and Medium Sized Enterprises (SMEs) with North American based end-users/corporate buyers which are looking for innovative water and energy solutions.

MWRA is open to exchange on energy optimization, PFAS removal, removal of emerging contaminants, treatment or struvite/phosphorus, resiliency and deployable fluid-reflexion systems.	Transforming Los Angeles Hyperion for the City to enjoy a reliable and sustainable source of water 100% water recycling by 2035 is a major challenge and sustainable opportunity.	The City is seeking innovators that can propose smart tech monitoring solutions for GRI, providing system performance data and maintenance trigger data for less cost and in real-time.	Quayside is a 12-acre area nestled in our East Bayfront neighbourhood at the foot of Parliament Street, near the West Don Lands and emerging Port Lands neighbourhoods. Strategic revitalization of this area is	HEET would like to know about technologies for thermal transfer from waste water and sewer water.	Urbs. and Hines are seeking to drive decarbonize buildings in New York, with a focus on Hudson Square Properties.	New York City Department of Citywide Administration Services seeking innovation via the IDEA Program	Opportunities within NYC DEP's green infrastructure and stormwater management	Resource recovery opportunities in New York

# Community: Solved

Join our online platform community for EU Techbridge to get access to:

- New **opportunities** in North America
- Engage with a growing **ecosystem** of companies, organisations etc.
- Hear about **upcoming activities**

<https://eutechbridge.solved.fi/register>

**EU Techbridge**  
Matching North American water and energy challenges with innovative solutions

### EU Techbridge Community Group

This space is for the EU Techbridge community to: keep up to date of activities and opportunities, to learn more about the project, engage with the project partners, to and meet others interested in strengthening North American - EU relations.

Please check out the project opportunities and see the other users in the side menus!

**Aims**  
The EU Techbridge project matches innovative European SMEs with North American based end-users/corporate buyers which are looking for innovative water and energy solutions. By setting up an intensive matchmaking programme (virtual and physical), concrete challenges from North American corporate buyers will be matched with innovative solutions from European SMEs.
